DETAILED ACTION

Response to Amendment

1. The present Office action is made in response to the amendment filed on 12/9/05. It is noted that in the amendment, applicant has made changes to the abstract and the claims.

Regarding to the claims, applicant has amended claims 1-9 and 11-16 and canceled claim 10. The pending claims 1-9 and 11-16 are examined in this Office action.

Election/Restrictions

2. The amended linking claim 9 is now allowable. Accordingly, the restriction requirement as to the encompassed inventions I and II is hereby withdrawn and claims 11-13, directed to the invention II are no longer withdrawn from consideration since all of the claims to this invention depend from or otherwise include each of the limitations of an allowed linking claim.

In view of the above noted withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Oath/Declaration

3. The objection to the oath/declaration as set forth in the previous Office action is now withdrawn due to the filing of an application data sheet on 12/9/05.

Specification

4. The objection to the abstract of the disclosure as set forth in the previous Office action is now withdrawn due to the amendment to the abstract provided in the amendment of 12/9/05.

Claim Objections

5. The objections to the claims 4, 14 and 16 as set forth in the previous Office action are now withdrawn due to the amendment to the claims provided in the amendment of 12/9/05.

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In claim 9: on line 3, changed "for for accommodating" to
--for accommodating--;

b) In claim 11: on line 1, changed the status indicator of "(Withdrawn, Currently Amended" to --(Currently Amended)--;

Art Unit: 2872

c) In claim 12: on line 1, changed the status indicator of "(Withdrawn, Currently Amended" to --(Currently Amended)--; and

d) In claim 13: on line 1, changed the status indicator of "(Withdrawn, Currently Amended" to --(Currently Amended)--.

Allowable Subject Matter

7. Claims 1-9 and 11-16 are allowed over the cited art.

8. The following is an examiner's statement of reasons for allowance:

The mouth switch arrangement as recited in the present claim 1 and the microscopy arrangement having such a mouth switch as recited in present claim 9 are patentable with respect to the cited art, in particular, the U.S. Patent Nos. 3,887,267 and 3,877,778 by the limitations related to the structure of the support of the mouth switch mount. In particular, the mouth switch mount of the cited art does not have a pivot member pivotably relative to the locking member and supporting the mouth switch as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
